# ELECTRONIC LOCKING SYSTEM COMPONENTS

## APPLICATIONS AND THEIR POSSIBILITIES.

Dialock access control system: From car park to shop display cabinet.  
With flexible access authorisations.

You define which doors guests, the room service employees and the management are allowed to unlock. If you wish, you can also specify the day of the week and the time. Almost anything that you can lock and unlock can be controlled using Dialock. Control is central using the Dialock software. You determine the number of contact points and the user. Block a card? The information is distributed in seconds. And Dialock also has many more possibilities.

## Safe Deposit Boxes

## Mini Refrigerator

- Specifications:
- . Power: 220V/60HZ
  - . Color : White, black
  - . Capacity: BOL
  - . Weight :25 kg
  - . Refrigerant: R1 34a
- Features:
- . Equipped with push button for semi-automatic defrosting system
  - . Provided with 9 liters freezer compartment
  - . Adjustable thermostat

**BOSCH**  
Invented for life

# MOVABLE WALL SYSTEM

Our products help to expand the imagination of designers. This applies especially to the development of flexible space-saving solutions for hotels, congress and convention centers, schools, restaurants, shopping centers and commercial buildings. Our greatest strength is our ability to deliver custom work. For instance, if you wish to divide a room without any loss of sound insulation and transparency, our latest model, Palace may offer the best solution. Every square meter of your area to be divided can be used as efficiently as possible.

In no time at all, Palace will enable you to divide a large space into smaller units. Thanks to our extensive experience with bearing technology and the rolling properties of a variety of different materials, we can find a high-quality, durable rail and trolley construction for every application that will also ensure an optimal ease of operation. (Floor guidance mechanisms will not be an obstruction to your floor.) Stability as well as perfect sound insulation: two typifying characteristics of Palace walls. The spindle mechanism and the so-called acoustic pressure sleeves secure the different panels firmly between the floor and the track. In addition, the parking possibilities are virtually unlimited.

AND SOUND  
INCLUDED

# HÄFELE

Häfele is an internationally organized family owned and operated business with headquarters in Nagold Germany. It was founded in 1923 and today serves the furniture industry, architects, planners, cabinet makers/joiners as well as dealers in over 150 countries around the world with furniture fittings and architectural hardware as well as electronic access control systems.

Häfele Philippines, Inc. opened its first office in Pasig City and Cebu in 1995, introducing German quality hardware fittings to the local furniture, construction, and hospitality industry. Since then, our market has grown steadily as we partnered with dealers, and supplied major hardware depots across the country to cater to end-consumers.

Established:	1996
Showroom as of 2018:	19
Core Expertise:	Hardware technology and furniture and buildings. mechanicaland electronic locking systems.
